Fohhn expands AIREA System

Prolight & Sound release for German manufacturer's new AIREA Breakout Extension ABX-3

Nürtingen/Frankfurt, Germany, 31st March 2016 – At Prolight & Sound 2016, **Fohhn Audio AG** will release the **AIREA Breakout Extension ABX-3** – a new D/A convertor for the company's fully digital, networkable and remotely controllable **AIREA** system, whose Master module and compact active loudspeakers are connected via a single CAT-5/CAT-7 cable.

The compact ABX-3 breakout box has the same basic functionality as Fohhn's existing AIREA ABX-1 D/A convertor, but is additionally equipped with a **high performance Fohhn DSP**. This enables the inclusion of active loudspeakers without integrated Fohhn DSPs in the AIREA system. When the ABX-3 is connected in the signal path before a group of these speakers, it acts as their Master, providing additional signal processing functions such as EQ and Delay. It also facilitates more effective remote control when using **Fohhn Audio Soft**.

Equipped with its own AIREA-Net outputs, the ABX-3 additionally offers a means of signal routing that has the following advantages: Signals can now also be split and routed. This, in turn, further simplifies the cabling requirement.

Visit Fohhn Audio at Prolight & Sound (5-8th April) in Hall 3.1, Stand F81.

About Fohhn

Fohhn Audio AG specialises in the manufacture of professional loudspeaker systems for both mobile and fixed-installation sound reinforcement. For over 20 years, the Nürtingen-based company has developed system concepts that combine innovative design and functionality with first class sound quality. Development of all Fohhn systems takes place in-house in Nürtingen, Germany, incorporating the company's own highly developed DSP-, amplifier-, network- and remote control technology. Special focus is placed on the integration of state-of-the-art technologies such as Beam Steering and on the latest developments in 3-D audio and digital audio networking technology.

Fohhn is currently distributed in more than 30 countries. Fohhn customers and users include, among others, the Opéra Bastille and Charles de Gaulle airport in Paris, the University of Heidelberg, Mainz Cathedral, Hengdian Studios in China, the Shanghai Tower, Doosan First Methodist Church in South Korea, the Danish Parliament, as well as the German, Kazakh and United Arab Emirates pavilions at EXPO 2015 in Milan.
